HORGEONG, JULY 10TH, 1894:

FROM a Hawaiian paper we notice that the Chinese residing in that country had presented a petition to the President and the Executive and Advisory Conneils of the Provisional Government praying that the following suggestions should be placed before the Constitutional Convention when it

met, viz. :-First.—A negotiation either of a treaty of friendchip, commerce, and navigation, or a labour convention, between the Hawaiian and the imperial Chinese Go-Second.-The granting of a franchise to all Chinese

who have become naturalized subjects or citizens of

Third.—A representation in the Advisory Councils or such body as may succeed it. Fourth.-That the right of franchise be granted Il such Chinese as may be competent to qualify under the electorial provisions of the new constitution. ANTHRAX IN SHANGHAT.

For some time now, says the N. C. Daily News, ponies in and around Shonghai having been dying in considerable numbers, and as it has now been definitely decided that the cause of death has, been anthrax, the peculiarly dangerous nature of the disease calls for careful attention on the part of the authorities, in order to prevent it spreading to human beings and animals. In the course of an interview yesterday (3rd) Dr. Whitney; the veterinary surgeon, stated that many cases of anthrax had come under his notice, and the Chinese livery stables were losing ponies in rather large numbers. The carcases of the ponies were being sold at Pahsienjao instead of being burned, and thus the risks of infection were very considerable. The disease was a most dangerous one, and could attack human beings as well as pigs, poultry or domestic animals. When it was stated that some of the infented carcases were being used for human food, that the hides were being passed about, and that the washings of the places where the animals were slaughtered are utilised for manuring regotables, he thought the risks being run would be sufficiently obvious. "What would you advise should be done

then P" was asked. "The Municipal Council," Dr. Whitney reter should have immediate attention; and the co-
